THINK IT EVIDENCE THAT SANTA FE **REMEMBERS STRIKE**

Fences in Topeka.

READ LIKE ORDINARY TRESPASSING NOTICES

That the officials of the Atchison. Topeka & Santa Fe Railway company recognize the fact that there is a strike on the part of the machinists against the road is evidenced by a bulletin which the company has tack-ed up on the fences around the shops warning strikers from interfering with its business in any way and promising divers kinds of punishment to all persons who aid and abet the machinists in carrying on the strike, says the Topeka State Journal. From time to time Third Vice President Kendrick and other officials of the road have declared that as far as the company was concerned the strike of the machinists which started some eighteen months ago did not exist—that it was a thing of the past—but they have evidently changed their minds recently for the following is the text of the

bulletin that has been placarded around the shops in the last two days. Warning.
All members of the International Association of Machinists and all other persons who aid or abet them it carrying on a strike will be held jointly, severally and personally liable as co-conspirators for all damage done to persons, property or business by reason of any unlawful acts acts or damage done by any person or persons in the furtherance of or in carrying on such strike, whether such member or other person participates or co-operates in doing such unlaw-ful act or personally sanctions the

The Atchison, Topeka & Santa Fe Railway company has been kept fully advised as to the threats made and the proposed means devised by certain representatives of said International Association of Machinists to injure its property and interfere with its business and employes, and impede the road between Santa Rosa and El Paso. Same. It intends to keep close watch upon every person connected with the paring to put in a plant at Santa strike, and upon all proceedings, and the main track have been laid to will spare no means to that end, so as the main track have been laid to not only impose a civil liability, but to see that all wrong-doors are brought to justice. It will prosecute to judgment all suits against members of said association, and other co-con spirators, for damages to its property and business, growing out of any ur lawful acts during the strike, and w see that the individual property of such members, and others implicated is taken to satisfy any judgments ren

dered.

The railway company is engaged in carrying the United States main, goods in bond under customs regulations of the government, and interstate commerce. Any unwarranted hindrance or obstruction to the same will be laid before the government of ficials for prosecution. ne Atchison, Topeka & Santa Fe Railway Company,

By J. W. KENDRICK, Its Third Vice President J. D. Buckalew, third vice president of the International, Association of Machinists, and W. L. Stark, presiden of the local machinists' union, stated yesterday that the significance of the warning was rather vague. "We have not injured the property of the com-pany in any way," said Mr. Buckalew. "nor have we intentions of doing so gitimate strike lines, we have pickels out and are using our best endeavors to have men working in the shops join us, but outside of that we are doing nothing to injure the property or the

husiness of the company."

New Playbouse at Needles. All of the deeds were this week signed by the several owners of block a conveying the title to that block to the Santa Fe company, says the Needles Eye. This is the block lying intween Front and Second Streets and between G and H streets. While is not known when the construction work will commence, the fact that the title has practically gone to the railway company, is sufficient to dispethe pessimistic views of some of our citizens who have been waiting further evidence of the good faith of the promise of the rallroad company that they would build a recreation building here at an expense to the company probably exceeding \$75,000. The ground has itself cost the company over \$14,000, and it seems more than probable that by the time railroad company has improved the location and placed the grounds in shape, as well as the construction of the building, that the actual cost will be neared \$100,000 than the figures before men

BLUE RIBBONERS THOUGHT COWPUNCHER REAL SWEET

W. C. T. U. LADIES EMBARRAS "RED" WILSON AT SANTA FE DEPOT.

"Isn't he too sweet?" The first real cow puncher that

W. E. NEAL, Albuquerque, New Mexico.

My Dear Sir: Your letter, with notice, has just reached me. I was aware from my policy, that L would be entitled to a "dividend" at this time, but I had no knowledge upon which to base an opinion as to the amount of the dividend. I certainly did not expect that it would be anywhere near the amount you mention (\$24.15 cash). This is nearly one-eighth of my annual premium, \$204.50. I am more than pleased with this showing. I inclose herewith check for \$204.50. The present dividued, and subsequent ones-unless otherwise instructedwill be left to purchase additional insurance. You know we have to protect the wife and babies, even if we have to go without a vacation ourself.

I hope to have the pleasure of meeting you here soon. Very sincerely,

W. V. WHITMORE.

WOULD YOU LIKE TO HAVE A POLICY LIKE THE ABOVE? WE HAVE A FEW MORE LEFT. FOR FULL PARTICULARS WRITE
